

BIM CUSTOMIZING INSTRUCTIONS

IMPORTANT: If you do use Edit Type or Customize

If you do use the Edit Type function within Revit to make any changes to parameters, you MUST also manually change the Kusel Part Number and Specification parameters, or the fixture schedule will not be accurate.

| Type Parameters | |
|-------------------------------|-------------------------------------|
| Parameter | |
| Constraints | |
| Default Elevation | 0' 0" |
| Text | |
| Designer Note | <input checked="" type="checkbox"/> |
| Materials and Finishes | |
| Round Top | |
| Square Top | |
| Material Remark | |
| Material | |
| 304 Stainless | |
| 316 Stainless | |
| Outlet Sch 10 | |
| Outlet Sch 40 | |
| Dimensions | |
| Body Depth | |
| Waste Size | |
| Mechanical | |

If you make any changes to these Parameters, you MUST also manually change the Kusel Part Number and Specification parameters.

LOCATION OF KUSEL FAMILIES

Use the **Kusel Drain Configurator** (<https://configurator.kuselequipment.com/configurator>) to make your drain selections. The Drain Configurator will give you the Kusel Part Number and Specification information.

Note: you can also download a Spec Sheet from here.

| Other | |
|---------------------------|-------------------------------------|
| Body Depth Actual | 0' 6" |
| Body ID | 0' 10 7/8" |
| Body Radius ID | 0' 5 7/16" |
| Body Throat Size | 0' 4" |
| Body Throat Radius | 0' 2" |
| Lower Transition Diameter | 0' 4 1/8" |
| Outlet Length | 0' 4 7/8" |
| Outlet Radius | 0' 1 1/2" |
| Outlet Thickness | 0' 0 7/64" |
| Transition Length | 0' 4" |
| Upper Transition Diameter | 0' 4" |
| Standard Size Outlet | <input type="checkbox"/> |
| Large Diameter Outlet | <input checked="" type="checkbox"/> |
